

# DA500 HYDROGEN

1200kW

100 Bar

up to 3000kg/h

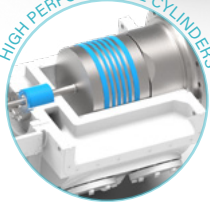

PURE ENERGY FOR A SUSTAINABLE FUTURE

**FORNOVOGAS**

Made and Designed in Italy

HIGH PERFORMANCE CYLINDERS

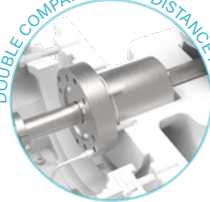

Piston rod with special treatment to prevent embrittlement

Piston seals and valves specifically designed for H2

HOERBIGER

DOUBLE COMPARTMENT DISTANCE PIECE

Gaskets and seals optimized to prevent H2 leakage

Purging of distance piece with inert gas

## MARKET APPLICATION

PIPELINE INJECTION

INDUSTRIAL ENERGY / FEEDSTOCK

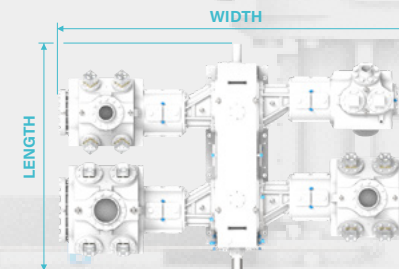

SYNGAS BOOSTING

POWER TO GAS

## TECHNICAL INDICATION

Dimension (width x length): 3670x2270mm

- › Easy to maintain
- › Excellent flexibility
- › Low cost operation
- › Ultra high purity

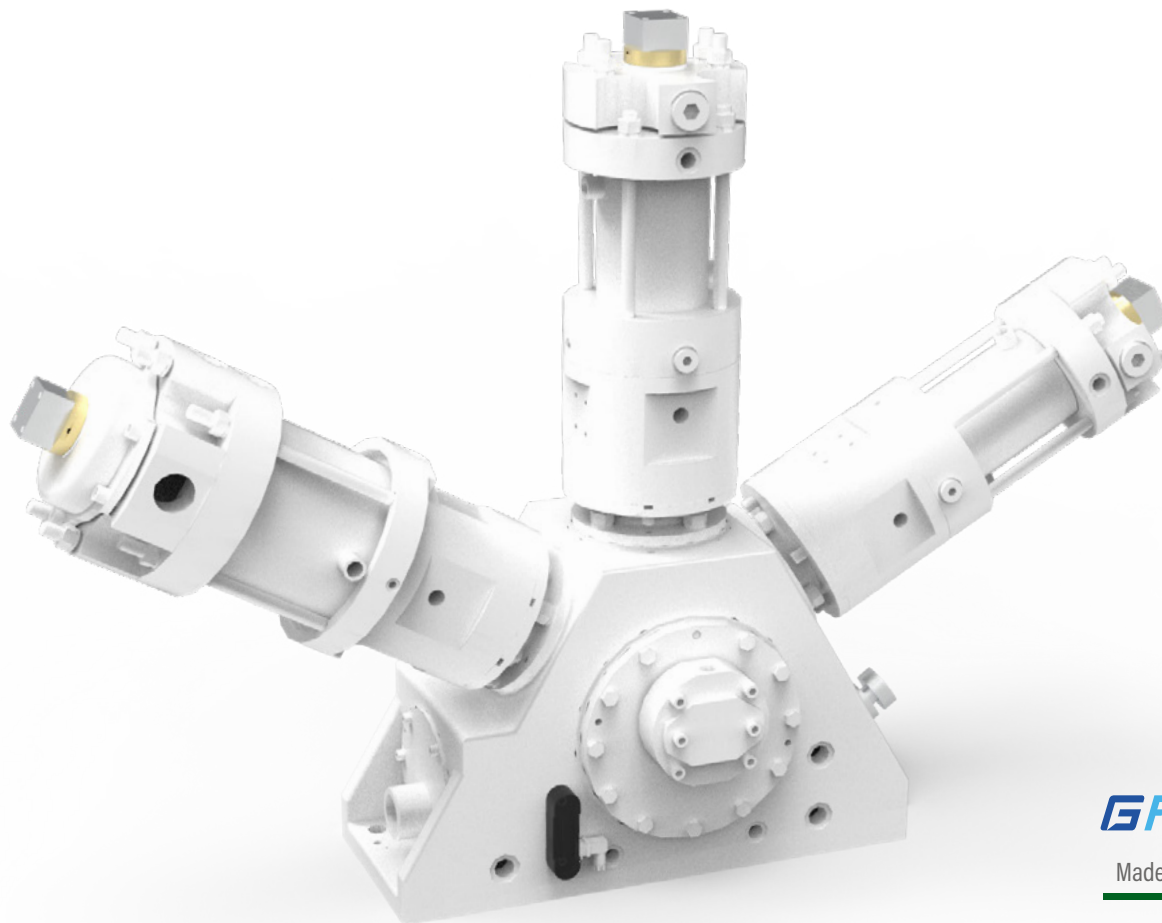

# SA200 HYDROGEN

55kW

100 Bar

up to 100kg/h

PURE ENERGY FOR A SUSTAINABLE FUTURE

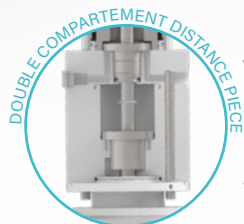

**FORNOVOGAS**

Made and Designed in Italy

Piston rod with special treatment to prevent embrittlement

Piston seals and valves specifically designed for H2 HOERBIGER
